PROFESSIONAL SUMMARY

Final-year student in Information Systems and Technologies, eager to apply and expand technical knowledge in software development, data analysis, and AI-driven solutions. Motivated, proactive, and ready to contribute to real-world projects, with strong problem-solving, adaptability, and teamwork skills.

SKILLS

- Programming Languages:** Java, Python, C#, C, MATLAB
- Web Technologies:** HTML, CSS, REST APIs
- Frameworks & Libraries:** React, Spring Boot
- Databases:** SQL, MySQL, PostgreSQL
- Tools & Technologies:** GitHub, Docker, Postman
- Office & Productivity:** MS Office (Excel, Word, PowerPoint)
- Data Science & Analytics:** Machine Learning, Tableau, Orange

LANGUAGES

- Serbian - Native
- Russian - Basic
- English - Intermediate

DRIVER'S LICENSE

- Category B

Sara Radulović

Final-year student in Information Systems and Technologies (Software Engineering track)

EDUCATION

- High school** **2018 - 2022**
Gimnazija Bora Stanković, Vranje, Serbia
Natural Sciences and Mathematics Track
- University** **2022 - present**
Faculty of Organizational Sciences (FON), Belgrade, Serbia
Information Systems and Technologies
Specialization: Software Engineering
Grade Point Average (GPA): 9.14

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- MATLAB — Solving Nonlinear Equations, Certificate (MathWorks Training Services)
- Oracle Java Foundations — in progress (Java programming and object-oriented design)

PROJECTS

- Java GUI Application (Object-Oriented Programming)**
Desktop application with graphical user interface developed in Java, applying object-oriented design.
GitHub: github.com/sradulovic003/hotel-booking-system
- Full-Stack Web Application (Spring Boot + React)**
Web application with REST API backend and React frontend.
GitHub: github.com/sradulovic003/pastry-shop-ordering-system
- TED Talk Views Prediction (LLM + Machine Learning)**
Prediction of TED talk popularity using LLM-based feature extraction and regression models.
Google Colab: [TED Talks Project](#)
- Disneyland Reviews Clustering (Unsupervised Learning)**
Unsupervised clustering of user reviews using SBERT embeddings and hierarchical clustering.
Google Colab: [Disneyland Reviews Clustering \(Unsupervised Learning\)](#)
