PROFILE

Final-year student at the Faculty of Organizational Sciences in Belgrade, focused on cybersecurity and cryptography. I am eager to deepen my security knowledge, contribute to real projects, and grow in a developer environment.

EDUCATION

Faculty of Organizational Sciences | 2022 - present

- Information Systems and Technologies

COMPETITION

OpenData | 2022

- Participated in the OpenData competition organized by Egzakta and the FON IRC, recognized with an awarded placement

COURSES

ZKP (Zero Knowledge Proofs) | 2025-2026

- Completed a Zero-Knowledge Proofs course organized by the Mathematical Academy, focusing on cryptographic hash functions, Merkle trees, and blockchain technology.

SKILLS

Operating Systems

- Linux:** Command-line usage, user/group permissions, process isolation, firewall configuration.
- Core Concepts:** Understanding of memory management and basic OS architecture.

Networking

- Protocols:** TCP/IP concepts and network security.
- Traffic Analysis:** Monitoring and inspecting network traffic using Wireshark.

Cryptography / ZKP

- ZKP:** Knowledge of Zero-Knowledge Proof concepts.
- Data Structures:** Merkle trees, hash functions, and blockchain basics.

Programming & Databases

- Languages:** **Java** (OOP, SQL integration), **C** (Low-level systems), **Python** (Scripting/Automation).
- Databases:** Relational Database Management (SQL), Data Structuring.

Tools & technology

- DevOps:** Git, Docker.

LANGUAGES

- Serbian - native
- English - fluent

PROJECTS

Java application

- Java application for managing ski equipment sales, built using Apache Beans and a SQL database (SQLyog). Implements CRUD operations and simple user interface for product management.
